

Facts:

THINK TROPICAL
TILAPIA

Species

*Chitralada
Oreochromis*

Origin

Ecuador – farmed in a low-density system to avoid overcrowding and promote good health.

Feed

The Tilapia feed is 96% vegetable-based made of only the finest, purest ingredients, formulated at our proprietary plant to ensure purity and quality.

Water

Tropical Tilapia is raised in a natural mixture of fresh mountain stream water and ocean waters that naturally replenish the ponds with each new tide.

Breeding

Tropical's farms produce their own fry from the healthiest stock at their on-site hatcheries to guarantee a premium product.

Fast Processing

Tropical Tilapia is delivered fresh, never frozen (unless you want it that way!) – 24 hours from harvest, 7 days a week. The Tilapia is never treated with preservatives to mask freshness – it truly is as fresh as it looks!

Natural

Tropical Tilapia is worry-free guaranteed – free of antibiotics, chemicals, growth promoters and preservatives.

Certifications

Tropical's responsible farming practices are backed by third-party certifications: 2-star BAP (Best Aquaculture Practices), Global.G.A.P., ISO and SQF certifications. Additionally, all processing facilities are HACCP compliant.

Tilapia Specs

Tropical Tilapia is available whole head-on and as skinless boneless fillets – both fresh and frozen.
